

Nuance® Dragon® NaturallySpeaking Home

Use your voice to get more done faster.

If you are a parent, student, retiree or busy multitasker, or someone who spends a lot of time on a computer, you may want an easy and enjoyable alternative to typing, to connect with your computer everyday. Using a keyboard and mouse as your primary computer interface can be slow, require a lot of correction and cause stress and strain on your arms, neck or back, even if you are a fast typist. What if you had another way to interface with your computer that is natural, accurate and a fun, easy way to get more done?

Dragon NaturallySpeaking 13 Home speech recognition software lets you get more done every day on your computer – quickly and accurately – using your voice. It's the fun, easy way to turn your spoken words into text much faster than you can type and execute simple voice commands for big productivity gains.

Dragon NaturallySpeaking advantages

- The fastest and most accurate way to interact with your computer. You can talk up to three times faster than you can type. With Dragon, you simply talk and your words appear on screen, enabling you to get more done faster.
- Freedom and flexibility to work the way you want. Dragon enables you to use your computer in a comfortable, ergonomic way,

supporting voice control, dictation and editing capabilities in most productivity and web applications. Use the included Nuance approved microphone or the mic built into many of the latest laptops, for optimal flexibility and convenience.

- Easy to get started, easy to master. Providing fast, easy set-up, helpful tutorials, and intuitive access to a rich and powerful feature set, Dragon 13 enables you to experience the benefits of speech recognition right away and realise ever-increasing productivity gains the more you use it.

Features and benefits

- The fastest and most accurate way to interact with your computer. Dragon delivers up to 99% speech recognition accuracy right out of the box, providing a personalised voice driven experience, learning words and phrases you use the most and delivering accurate results the more you use it.
- Use your voice to dictate documents or enter text anywhere you normally type. Dragon eliminates barriers to productivity and creativity by letting you interact with your computer by voice. It turns your spoken thoughts into text and your voice commands into action so you don't have to worry about the

Key features and benefits

- Accurate, voice driven interface, learns from you for personalised accuracy – get more done faster.
- Create, format and edit by voice – think out loud and break creativity barriers.
- Dictate text within popular applications, including on the web.
- Voice command your computer in ergonomic, handsfree comfort.
- Nuance approved microphone included. Flexibility to select microphones, including those built into many laptops.
- Easy proofreading with text-to-speech.
- Intuitive design and helpful tutorials – easy to get started and easy to master.

- mechanics of typing and spelling.
 - Edit and format documents – all by voice. Dragon allows you to select text, make edits and apply formatting such as bold, underline, capitalisation and more, using your voice to make easy work of document creation. “Smart Format Rules” automatically adapt to how you want abbreviations, numbers and more to appear, so you don’t have to correct them every time.
 - Command and control your computer all by voice. Launch applications, select menu items, execute key functions, switch windows, search the web, create and send emails and more – all by voice. It gives you the flexibility to work handsfree, if desired, and experience more ergonomic comfort when working on your PC.
 - Enjoy superior dictation, voice editing and voice command in many popular web applications. Dragon gives you robust voice command and control as well as “Full Text Control” (full voice driven editing and command capabilities) within many popular applications, including web applications such as Gmail™, Outlook®.com and Yahoo! Mail® within Internet Explorer®, Firefox® and Chrome™, enabling you to create documents and zip through computer tasks in record time.
 - Choose your microphone option for freedom and flexibility. With automatic microphone detection, Dragon will conveniently show you which microphones are available for you to use. You can also use multiple audio device types within the same profile, meaning that you can easily switch to another microphone while keeping all your personalised preferences for accuracy and formatting. See support.nuance.com/compatibility for Nuance approved microphones.
 - Dragon’s natural sounding text-to-speech capability reads designated text to you, simplifying proofreading and supporting new levels of multitasking.
 - Easy to get started, easy to master. Dragon makes it easy to get started with speech recognition and become even more proficient with regular use. It’s also simple to explore more advanced features that can boost your productivity even further.
